

November 16, 2001

Launching of the UNIMED BN website.

The aim of the *UNIMED Business Network* project, managed by UNICE (Union of Industrial and Employers' Confederations of Europe) and supported by the European Commission in the framework of Euro-Mediterranean partnership, is to bring employer organisations in the Mediterranean partner countries closer to each other and to their sister organisations in the European Union. With this in mind, UNIMED recently opened its bilingual English/French Internet site (www.unimedbn.org).

With a simple approach and a clear structure, this site offers visitors a presentation of the project's objectives and training/networking activities, a page of links to all the participating employer organisations, the conclusions of Euro-Mediterranean industrial summits together with a selection of topical news items relating to the economic dimensions of the Barcelona process. The site seeks to be a useful tool for the press, but also for European officials and members.

Accordingly, a section of this site is reserved for the participating employer organisations, which can thus develop contacts, and exchange information and views.
