<p>UNICE AND ETUC STRONGLY CONDEMN KILLING OF PROFESSOR BIAGI</p>

Reacting to the tragic news of the killing of Professor Marco Biagi in Bologna, UNICE, the Voice of Business in Europe, and ETUC, the European Trade Union Confederation, strongly condemn this act of terror.

Professor Biagi's contributions have been determinant in many studies and debates on industrial relations in Europe. He was highly respected for his expertise, independence of mind, commitment to social dialogue and strong engagement in favour European integration.

A man has just been murdered, because of his ideas, in the European Union, at the beginning of the twenty-first century. The European business community and the European trade union movement could not remain silent.
