

Employment for all and flexicurity

Vladimíra Drbalová

Vice-Chairperson, Social Affairs Committee

Conference on International Solidarity

Brdo, 28-29 April 2008

- 39 Members from 33 European countries
- This year, BUSINESSEUROPE celebrates its 50th anniversary
- Priorities:
 - Implementation of reforms for growth and jobs
 - Integration of European markets
 - Govern the EU efficiently
 - Shape globalisation and fight all kinds of protectionism
 - Promote a secure, competitive and climate-friendly energy system
 - Reform European social systems to respond to globalisation challenges

Key challenges facing European labour markets – Recommendations on flexicurity

- Member States
 - Design a right mix of policy measures addressing flexibility and security dimensions for workers and employers in a holistic and balanced way
 - Involve social partners in the design of policy measures and develop their capacities where needed
 - Integrate the various policy measures in their NRPs
 - Strengthen efforts for a real and effective implementation of the various flexicurity measures at the appropriate level

Key challenges facing European labour markets – Recommendations on flexicurity

- European Commission and the Parliament
 - Involve the social partners in the ongoing debate on defining flexicurity principles at European level and take into consideration the present contribution
- Social Partners
 - Actively contribute to the design and implementation of policy measures addressing the flexibility and security dimensions
