

# European Safety Federation

## Partnership European Campaign

# Mission of ESF

to create and promote  
**health and safety** management  
**in the workplace**  
and enhance health and safety awareness  
of the workers by emphasizing  
the important role of using  
the **appropriate PPE**  
to ensure their well-being, health and safety  
throughout  
professional life and leisure time.

# Mission of ESF

to promote and highlight  
the need for **appropriate selection**,  
unconditional acceptance and  
**correct use of PPE** at work  
throughout the European Union,  
**based on efficient risk management  
and thorough analysis.**

# Mission of ESF

to initiate contacts with  
the EU Commission work groups,  
Horizontal Committee of Notified Bodies,  
CEN Nucleus  
on all **innovations, evolution and standards**  
**in the field of PPE.**

# Mission

**to inform and advise**  
the EU Commission,  
Horizontal Committee of Notified Bodies,  
CEN PPE sector forum  
and all other involved organisations  
dealing with PPE  
and safety and health at work.

# Members are

- dedicated and committed to provide CE certified high quality PPE
- giving expert advice and assistance in the process of **risk assessment**, analysis and training

Supporting a safety conscious way of life is a common interest to all of us

# European Campaign – why partnership

- Risk assessment is the basis for correct selection, use, care and maintenance (SUCAM) of PPE
- See ESF mission and members commitment
- Reality : in (smaller) companies the supplier of PPE is involved risk assessment
- Recognition of PPE as part of OHS management
- Networking - visibility

# European Campaign – events/seminars/meetings

- By ESF directly
  - Limited resources – so mainly driving force / coordination of activities by our members
  - International seminar for members of national organisations and affiliated members – end of November 2009 in Brussels

# European Campaign – events/seminars/meetings

- By our national members
  - Exhibitions with combined conferences
    - Example : Febelsafe, Belgium : Secura, March 2009 – practical demonstrations + conferences with best practices (graphical industry, green sector, SME organisations, fire fighting, care and maintenance)
  - Training courses
    - Example : Synamap, France : training of PPE sales personnel + interested parties (several courses a year) – risk analysis is basis for correct selection and use of PPE, so important part of the training

# European Campaign – other activities
