

A ROAD MAP FOR A LOW CARBON POWER SECTOR BY 2050

A Presentation by the International Electricity Partnership

Tuesday, 15 December 2009

ROOM SAXO GRAMMATICUS

15:00 – 17:00

The International Electricity Partnership has produced a roadmap for a low carbon power sector which aims to reconcile scientific, technological and policy objectives to set a practical pathway to a low carbon future. The event will present this work by EEI (US), FEPC (Japan), EURELECTRIC (Europe), ESAA (Australia), and CEA (Canada).

1. *What is the International Electricity Partnership and what are its objectives?*
Hans ten BERGE
Secretary General, EURELECTRIC
2. *The Road Map – an Overview*
Dr Bill KYTE, OBE
Chief Advisor International Climate Policy, EURELECTRIC
3. *The Regional View:*
 - Australia **Brad PAGE,**
ESAA
 - Canada **James TAYLOR,**
Nova Scotia Power
 - Europe **John SCOWCROFT,**
EURELECTRIC
 - Japan **Ichiro MAEDA,**
FEPC
 - US **Eric HOLDSWORTH,**
EI
4. *Round Table Discussion*
