

SPRING 2015 REFORM BAROMETER – HUNGARY

		Q1 : the recommendation is :	Q2 : Implementation on effort is :	Detailed comments
CSR 1	Reinforce the budgetary measures for 2014 in the light of the emerging gap relative to the Stability and Growth Pact requirements, namely the debt reduction rule, based on the Commission 2014 spring forecast. In 2015, and thereafter significantly strengthen the budgetary strategy to ensure reaching the medium-term objective and compliance with the debt reduction requirements in order to keep the general government debt ratio on a sustained downward path. Ensure the binding nature of the medium-term budgetary framework through systematic ex-post monitoring of compliance with numerical fiscal rules and the use of corrective mechanisms. Improve the transparency of public finances, including through broadening the mandatory remit of the Fiscal Council, by requiring the preparation of regular macro-fiscal forecasts and budgetary impact assessments of major policy proposals.	Important	Satisfactory	
CSR 2	Help restore normal lending flows to the economy, inter alia by improving the design of and reducing the burden of taxes imposed on financial institutions. Adjust the financial transaction duty in order to avoid diverting savings from the banking sector and enhance incentives for using electronic payments. Investigate and remove obstacles to portfolio cleaning inter alia by tightening provisioning rules for restructured loans, removing obstacles to collateral foreclosure as well as increasing the speed and efficiency of insolvency proceedings. In this respect, closely consult stakeholders on new policy initiatives and ensure that these are well-targeted and do not increase moral hazard for borrowers. Further enhance financial regulation and supervision.	Helpful (but not a priority)	No progress	
CSR 3	Ensure a stable, more balanced and streamlined tax system for companies, including by phasing out distortive sector-specific taxes. Reduce the tax wedge for low-income earners, inter alia by improving the efficiency of environmental taxes. Step up measures to improve tax compliance — in particular to reduce VAT fraud — and reduce its overall costs.	Extremely important	No progress	

CSR 4	Strengthen well-targeted active labour market policy measures, inter alia by accelerating the introduction of the client profiling system of the Public Employment Service. Put in place the planned youth mentoring network and coordinate it with education institutions and local stakeholders to increase outreach. Review the public works scheme to evaluate its effectiveness in helping people find subsequent employment and further strengthen its activation elements. Consider increasing the period of eligibility for unemployment benefits, taking into account the average time required to find new employment and link to activation measures. Improve the adequacy and coverage of social assistance while strengthening the link to activation. In order to alleviate poverty, implement streamlined and integrated policy measures to reduce poverty significantly, particularly among children and Roma.	Extremely important	No progress	
CSR 5	Stabilise the regulatory framework and foster market competition, inter alia by removing barriers in the services sector. Take more ambitious steps to increase competition and transparency in public procurement, including better use of e-procurement and further reduce corruption and the overall administrative burden.	Extremely important	No progress	
CSR 6	Implement a national strategy on early school leaving prevention with a focus on drop-outs from vocational education and training. Put in place a systematic approach to promote inclusive mainstream education for disadvantaged groups, in particular Roma. Support the transition between different stages of education and towards the labour market, and closely monitor the implementation of the vocational training reform. Implement a higher-education reform that enables greater tertiary attainment, particularly by disadvantaged students.	Important	No progress	
CSR 7	Review the impact of energy price regulation on incentives to invest and on competition in the electricity and gas markets. Take further steps to ensure the autonomy of the national regulator in establishing network tariffs and conditions. Take measures to increase energy efficiency in particular in the residential sector. Further increase the sustainability of the transport system, inter alia by reducing operating costs and reviewing the tariff system of state-owned enterprises in the transport sector.	Important	No progress
