New EU better regulation strategy likely to improve EU policy-making

(Brussels, 19 May 2015) Following the release today of the European Commission Better Regulation Package, BUSINESSSEUROPE Director General Markus J. Beyrer said:

“Better regulation is essential to improve competitiveness, growth and employment. All EU institutions must work together to put better regulation at the centre of the political agenda. We welcome many of the initiatives set out in the new strategy, including better impact assessments throughout the legislative process, and more independent quality advice to improve EU laws.”

BUSINESSEUROPE has previously set out key recommendations and principles it believes are essential for improving EU policy-making:

- take competitiveness and growth considerations into account throughout the entire legislative chain;
- reduce burdens and find more proportionate and effective solutions;
- openness and transparency to allow for timely and meaningful participation by relevant stakeholders at all stages of the policy-making process.

BUSINESSEUROPE is looking forward to implementation of the new better regulation strategy and is ready to work with all EU institutions to achieve smarter, better and more effective regulation in the EU.
